EXPERIENCE

Project Lead | 2024

Project-Based Learning Group – Semarang State Polytechnic

- Organized and delegated tasks, ensuring the project was completed within deadlines and met quality standards.
- Collaborated with colleagues to manage all aspects of the projects of the project, including requirement analysis, backend development, and frontend implementation.
- Facilitated brainstorming sessions and guided team members in resolving technical challenges, fostering a collaborative and innovative environment.

Module Writer | 2024

International Business Management Study Program – Semarang State Polytechnic

- Worked alongside an instructor to design and develop educational modules focused on WordPress and WooCommerce.
- Developed practical materials, including tutorials and step-by-step guides, to help students learn website development and e-commerce functionality.
- Ensured the content was clear, and aligned with the program's learning objectives.
