SUMMARY

Proficient and passionate full-stack web developer with extensive hands-on experience in HTML, CSS, PHP, JavaScript, Dart, Laravel, and Flutter. Adept at designing and developing responsive, user-friendly web and mobile applications, with a strong command of both front-end and back-end technologies. Continuously expanding expertise in modern frameworks like Vue.js, and React to deliver cutting-edge solutions. Known for a detail-oriented approach, problem-solving mindset, and commitment to writing clean, efficient code. Eager to contribute technical expertise and a drive for innovation as a web development intern, while thriving in a collaborative, growth-oriented environment.

EXPERIENCE

Project Lead | 03/2024 – 07/2024

Project-Based Learning Group - Semarang State Polytechnic

- Successfully organized and delegated tasks, ensuring timely project completion while maintaining high-quality standards.
- Collaborated with cross-functional teams to manage all project aspects, including requirement analysis, backend development, and frontend implementation.
- Facilitated brainstorming sessions and guided team members in resolving technical challenges, fostering a collaborative and innovative environment.

Module Writer | 10/2024 – 12/2024

International Business Management Study Program - Semarang State Polytechnic

- Partnered with an instructor to design and develop educational modules focused on WordPress and WooCommerce.
- Created practical learning materials, including tutorials and step-by-step guides, to enhance students' understanding of website development and e-commerce functionality.
- Ensured content clarity and alignment with the program's learning objectives, contributing to an effective learning experience.

Web Developer | 11/2024 – 12/2024

Professional Company Profile Website Development

- Designed and developed a professional company profile website using WordPress, customizing themes and plugins to meet the client's specific requirements.
- Deployed the website on a VPS server, ensuring optimal performance, security, and scalability.
- Demonstrated strong technical skills in web development, server management, and attention to detail, delivering a fully functional and visually appealing website.
